

## Hold a Drive for Homeless Families

You can help ease the mind of a recently homeless family by providing them with a welcome kit including items they will need to live in their new home. The families that come to us for support can stay in furnished apartments for up to 90 days while taking advantage of other services to get them back on their feet. When they arrive to the apartment, they often come with very few possessions. We would like to provide each family with a welcome kit to ease their transition into their new living space.

Following is a list of the items contained in each kit. We welcome donations of complete kits or of any items on the list. Once your drive is complete, you can drop your donations off at our family services office.
